

SWIFT ADIRONDACK PACK CANOE

Swift has developed a line of Pack Canoes that are styled off our popular Adirondack kayaks. The Adirondack Pack Canoes are lightweight, beautiful, offer great paddling performance and kayak like comfort! They are finished with our Carbon Kevlar Trim, Comfort Flex Kayak Seat and Kayak Foot braces. While they are referred to as 'Pack Canoes' in the Paddlesports industry, most of the paddlers who use them, paddle them in a low seated position with a kayak paddle.
